

Outdoor Car show case

MetalDesign

L'Auto dealer has chosen to use our wire mesh decorated to imprint its logo and make unique this Car Showcase based in Como during the ""Città dei Balocchi"" event.

The project has been designed and realized by Architettura Design Workshop studio aims to be a communicative synthesis of product communication and aesthetic.

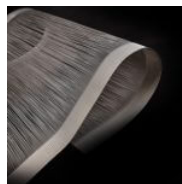

This technique is possible by high-adhesion nanoparticle pigments and resistant to weathering.

Suitable for use in aggressive environments, decorated metal mesh combines technique and aesthetics, reproducibility and customization
