

Our wire mesh Punta Diamante AL has been used for the prestigious Adidas offices in Milan. The particularity of this metal mesh is given by the particular weave of metal wires that create a rhomboidal effect. Punta Diamante AL lends itself to a unique design that illuminates the stairs of these offices with a game of infinite reflections where the design like a spearhead enhances the aesthetic performance, a product born of creative experiences and high level technical, for a style that favors simple lines and at the same time architectural
