

RIVER

PORTFOLIO

EXTERIOR FACADE SUPERMARKET PESCHIERA DEL GARDA

The exclusive product River, creates an endless range of metallic reflex, guaranteeing an optimal spectacular effect and a remarkable chromatic wealth in every atmosphere. Precisely for this project, the metal mesh has not been selected for its function as a sunscreen, but for a purely aesthetic choice, where the product River has the only purpose of enhancing the linear facade. The simplicity of the application and the study of targeted product create following the architects need, led TTM Rossi to win the contract in question.
