

## PORTFOLIO

### RETAIL PERFUMERY LA GRIFFE

# FIAMMA

The product Fiamma is a metal mesh ductile, brilliant, totally fireproof, because made of stainless steel, which lends itself to the creation of decorative ceilings for installation in public and private places.

The mesh used in the perfumery LaGriffe was firstly crumpled and then fixed to the ceiling by wires.

The final effect is extremely scenic and conjures the image of a soft cloud embellished with metallic reflections and glare.
