FURNISHING STARBUCKS COFFEE

FIAMMA

The American coffee company Starbucks has chosen to decorate a coffeehouse in Beverly Hills our wire mesh Fiamma.

Fiamma is a metal mesh ductile, brilliant, totally fireproof, because made of stainless steel, which lends itself to the creation of decorative ceilings for installation in public and private places.

This product will perfectly match to the colors of the coffeehouse and, for this reason, it was possible to obtain a final effect unique and spectacular.
